### **Software Applications**

While the following list of applications is current at the time of publication, Printlink has a policy of continually updating and maintaining our applications in line with the needs of our clients.

This software is industry based and allows for prepress efficiency, if your files are generated in applications other than those listed, let us know in advance and we can work with you on this so as to achieve the best results.

We can accept files on CD, DVD, Zip and Jazz or by email – up to 100MB, or talk to us about setting up a FTP server for quicker, more secure file transfer or for extra high security material a VPN line.

Printlink also has a thorough working knowledge of Microsoft PC applications, talk to us about your requirements, and we can advise on the best practices.
